Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 5-13, drawn to a steel intaglio printing plate.

Group II, claim(s) 2-4, drawn to a mold for producing steel intaglio printing plates.

Group III, claim(s) 14-18 and 20, drawn to a method for producing an object.

Group IV, claim(s) 19 drawn to a method for producing a steel intaglio printing plate.

Group V, claim(s) 21-24, drawn to a method for producing a security document.

Group VI, claim(s) 25, drawn to a security document.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1, because under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I includes a steel intaglio printing plate including areas with steel intaglio structures and embossed structure which is not required by Groups II – VI. Group II includes a mold for producing steel intaglio plates that can produce intaglio plates with structure which is not required by Groups I and III-VI. Group III includes a method for producing an object comprising producing a mold and die with structure which is not required by Groups I, II, and IV-VI. Group IV includes a method for producing a steel intaglio

printing plate comprising producing steel intaglio structures and embossed structures that can be produced by structure which is not required in Groups I-III and V and VI. Group V includes a method for producing a security document by an intaglio printing method which is not required in Groups I-IV and VI. Group VI includes a security document having a steel intaglio printed image that can be made by a method or mold which is not required by Groups I-V.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
